

Updates/errors

Corrections to be made to next revision

If you spot anything that needs revising or correcting in the course material, let John Truscott know and we can adjust future versions of the material. The following are adjustments that need to be made to version 2 of the material published in September 2016.

Written assignments paper

In the explanation for Assignment 1, the Church of England now have a new website and the link to the Ordinal has changed to <https://www.churchofengland.org/prayer-and-worship/worship-texts-and-resources/common-worship/ministry/common-worship-ordination-services>.

Unit 3

Personal application A1

The reference to the Support theme in the Church Health Review should say pages 23-27 not pages 22-26 and clarify this is from paper HC5 on the website. There should also be a one-line gap between points 2 and 3.

Noted: January 2018

Various

This is not so much a correction as a reminder that students following the NEW textbook (by Parton/Watkins) from August 2017 should check the paper 'Change of textbook' because there are some key differences. For example in Unit 2, Personal application A3, the work requested is shown for the new textbook as the present wording will not make much sense for those who do not hold the old textbook (by Sutherland).

The paper 'OX – Change of textbook' may be found near the start of <https://www.john-truscott.co.uk/Administrators/Distance-learning> or in the St John's Dropbox folder.
